Education

SMA Negeri 01 Pancung Soal — Padang, Indonesia
Natural Science High School — July 2021 - July 2024

Politeknik Negeri Padang — Padang, Indonesia
Information Technology Diploma III — August 2024 - Present
GPA: 3.6

Experience

BEM KM PNP | Public Relation Department — Padang, Indonesia | September 2025 - October 2025

Coordinated the scheduling and allocation of campus campus buildings for various student organizations, ensuring smooth event transitions and zero scheduling conflicts.

Drafted and managed official venue lease proposals and compliance documentation submitted to university authorities for approval.

Supervised on-site building operations during events to maintain facility integrity, safety standards, and adherence to campus regulations.

Acted as the primary liaison between the Student Executive Board (BEM), university administration, and student organizations to streamline event logistics.

Resolved real-time venue and logistical issues during live events to minimize disruptions and support student activities.

Skills

Programming Languages:	PHP, Dart
Libraries/Frameworks:	Laravel, Flutter
Tools / Platforms:	VS Code, Git
Databases:	MySql

Projects / Open-Source

Student Admission System (PPDB) | Link — *PHP*

Developed a web-based student admission system for junior high schools in Padang City, covering online registration, document upload, school selection, and result announcement.

Implemented automated selection across four admission pathways (zoning, achievement, affirmation, relocation) with quota management and distance-based prioritization using GPS coordinates.

Integrated interactive maps with Leaflet.js and OpenStreetMap, including district boundary polygons and markers for 20 public schools.

Built an admin dashboard with Chart.js analytics, document verification, and role-based access control (super admin and school operator), secured with CSRF protection, bcrypt hashing, and prepared statements.

Certifications
